```tsx

setupIonicReact();

const App: React.FC = () => (
  <IonApp>
    <IonReactRouter>
      <IonRouterOutlet>
        <Route path="/home" element={<Home />} />
        <Route path="/" element={<Navigate to="/home" replace />} />
        <Route path="/About" element={<About/>}/>
      </IonRouterOutlet>
    </IonReactRouter>
  </IonApp>
);

export default App;

```
